

THE **BERG** CORPORATION

DEMOLITION AND ENVIRONMENTAL
CONTRACTORS • CONCRETE CRUSHING

Reference Letter

Marquis Ogden,

The Berg Corporation has had the pleasure of working with the Kayden Premier Enterprises team at the Bayview Building "C" demolition and site modification project. Kayden Premier Enterprises performed all the underground utility capping, sediment and erosion controls, earthwork, grading, import of all necessary fill, import and placement of topsoil and seeding all disturbed areas.

Berg realized the privilege of working with Kayden Premier when we had an emergency onsite and they were there within the hour. To Kayden Premier nothing is more important than pleasing the client.

The Berg Corporation expects to work with Kayden Premier Enterprises, Inc on many jobs in the future.

Sincerely,

RJ Maska
Project Manager
